

DeFi Dozen Index

An AI-powered Index that's simplifying the DeFi Revolution

AI-driven DeFi benchmark

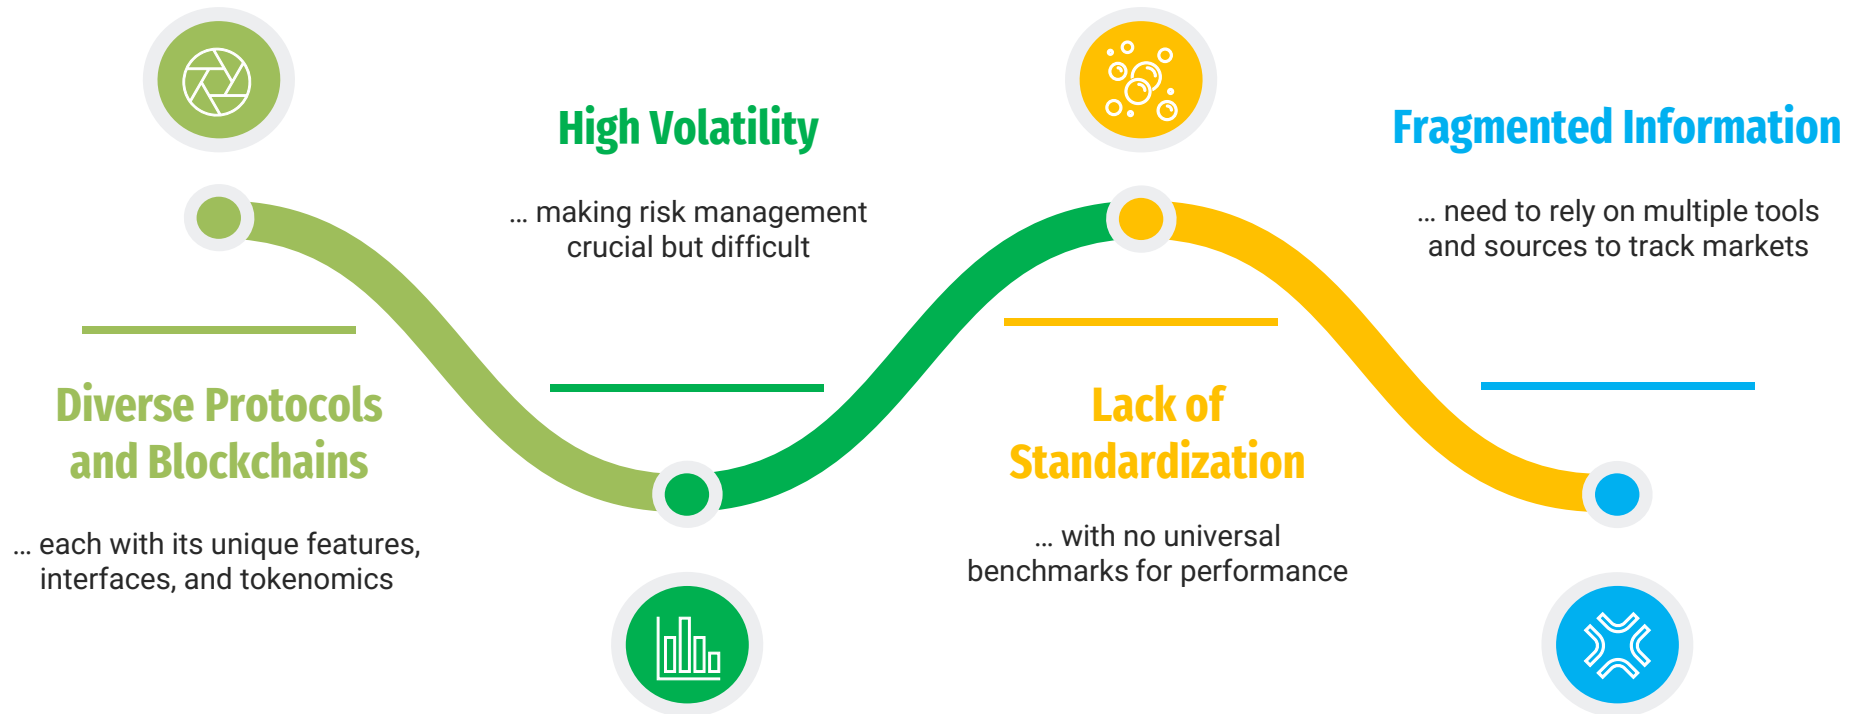

Crafted for individual and institutional use

Powered by fine-tuned LLMs and specialized AI agents

Despite its growth, the DeFi market remains fragmented and complex preventing users - individuals and institutions - from participating in the DeFi revolution

Key limitations include:

The DeFi Dozen Index provides a consolidated, reliable, and diversified market view, lowering barriers to entry and empowering users to seamlessly access and participate in DeFi

Definitive Benchmark

Representing various DeFi segments, ensuring holistic market representation

AI-powered Indexing

Ensures efficient, data-driven rebalancing and risk assessment in real-time

Enhanced Usability

Making DeFi accessible to users of all experience levels

Risk Mitigation

Diversifying across segments and top-performing tokens

Community Governance

Structured as a decentralized autonomous organization (DAO)

The index is composed of twelve AI-selected tokens that represent the top DeFi protocols by market cap across key segments, ensuring comprehensive market coverage

Name	Value	Change	Chg%	Open	High	Low	Prev
 Uniswap	9.721	-0.23	-2.34%	9.955	10.083	9.606	9.954
 Chainlink	18.823	-0.38	-1.95%	19.206	19.333	18.635	19.198
 AAVE	253.85	1.06	0.42%	253.33	256.17	246.51	252.79
 Curve Finance	0.5305	-0.03	-4.68%	0.562	0.5219	0.5561	
 DAI	0.9999			0.9998	0.9998	0.9999	
 Compound				58.27	58.72	56.12	58.27
 Lido DAO		0.04	2.23%	1.747	1.845	1.711	1.746
 Synthetix	1.000	-0.04	-3.85%	1.042	1.054	0.986	1.040
 Etherfi	1.161	-0.026	-2.19%	1.189	1.226	1.149	1.187
 Balancer	1.9724	-0.0456	-2.26%	2.0176	2.0368	1.9576	2.0180
 Reserve Protocol	0.008957	-0.00	-2.08%	0.009169	0.009416	0.008792	0.009147
 Pendle Finance	3.447	-0.145	-4.04%	3.576	3.616	3.414	3.592

- Nodes
- Alerts

Artificial Intelligence powers the quarterly selection and reconstitution of index constituents, ensuring ecosystem integrity, token liquidity, and technological advancement

Why Now? With DeFi maturing, institutional demand rising, regulatory clarity emerging, and AI transforming finance, the DeFi Dozen Index is primed to lead as the industry benchmark

Moving ahead, the DeFi Dozen Index will serve as a versatile foundation for diverse DeFi financial products, catering to various investment strategies and risk profiles

Potential products that can be created with the index

Structured Products

Ai-powered tailored investment strategies for specific goals

DeFi ETFs

Exchange-Traded Funds (ETFs) tracking the DeFi Dozen index

Derivatives

Futures, options, and perpetual contracts based on the index

Tokenized Index

Tradeable index token representing the DeFi Dozen

By serving as a benchmark gauge for DeFi, the DeFi Dozen index empowers individuals and organizations to confidently navigate and participate the rapidly emerging world of DeFi

Retail Investors

Gain exposure to DeFi with minimal complexity

Institutional Investors

Use the index for portfolio diversification and benchmarking

Institutions

Build innovative financial products using the index as a foundation

Regulators / Analysts

Gain insights into the DeFi market for better evaluation /policy-making

Join us as we forge alliances, craft truly next-gen AI-enabled solutions, and democratize participation in the emerging world of decentralized finance
